Gould & Ratner Participates in Habitat for Humanity Chicago Build Day

We've long been proud to support Habitat for Humanity Chicago through pro bono legal services—but recently, a team of our attorneys and staff rolled up their sleeves and got to contribute in a different way: on-site, helping build three new homes on Chicago's West Side for families in need.

We're incredibly grateful for our continued relationship with Habitat for Humanity Chicago and the opportunity to support their mission—both in and out of the office. It was a meaningful day of hard work, teamwork, and community impact, and we're already looking forward to the next build!
