Gould & Ratner Participates in Second Annual Habitat for Humanity Chicago Build Day

For the second year in a row, the Gould & Ratner team rolled up their sleeves for a Habitat for Humanity Chicago Build Day!

We've long been proud to support Habitat for Humanity Chicago through pro bono legal services, but it was especially gratifying to get our hands dirty by doing landscaping and interior painting for three homes on Chicago's West Side for families in need.

We're incredibly grateful for our continued relationship with Habitat for Humanity Chicago and the opportunity to support their mission — both in and out of the office. It was a meaningful day of hard work, teamwork, and community impact, and we're already looking forward to next year.
