Gould & Ratner Represents Client TanvasTouch in Innovative Technology Product Release

Corporate

Intellectual Property

Gould & Ratner, with Fred Tannenbaum and David Newman as lead partners, recently represented our client, [TanvasTouch](#), a surface haptics company, in the launch of a groundbreaking new product, Mimo Vue with TanvasTouch. The 10.1" touchscreen is the first commercial product that [Mimo Monitors](#) Vue display with TanvasTouch textures on flat, physical surfaces. The technology can be customized for a wide range of uses, including experiential retail, museum exhibits, conference room displays and automotive. [Click here to read the full press release](#).
