Gould & Ratner sponsored and attended the Urban Land Institute's 8th Annual Vision Awards on July 10. These awards recognize the inventive projects, programs and young professionals in the land-use and development fields. Award-winning projects and programs highlight creative development practices, inventive partnerships or sharing of resources, imaginative problem solving, or visionary ideas that have contributed to the growth of vibrant communities. The relative size of a program or project, whether square footage or total budget, is secondary to the innovative characteristics contributing to its success. The Young Visionary Award recognizes outstanding young leaders in the land use and development fields. These younger professionals set the bar for career advancement, goal-setting, community service and a strong commitment to ULI's principles of land use. [Learn more about ULI.](#)
